

## Online English lecture

### Online English lecture on *Fake News & Hacking* with Pawel Ngei (5bw, 6bw & 8bw) – Feb 5, 2021

“I think it was a really interesting and great lecture! It was a unique opportunity to listen to such a knowledgeable person talking about all the problems and difficulties that fake news entails. Therefore, I am grateful that I could attend this lecture. I hope that many other students will be able to listen to Pawel’s intriguing stories.”

Jan Jammerneegg (6bw)

---

When fake news spreads so fast  
it should be our task  
to stop this  
because the news is not just beautiful, positive and wonderful  
but also brutal, sad and unlawful.

Not believing what someone says  
and trying to confess  
that not everything is the way we want it to be  
should maybe  
show us  
to distrust  
and take the time to just  
look twice  
and take advice  
to not spread fake news  
in our lives.

Monique Kern (6bw)
